

CLUB SPIRIT

6 November 2017

To all members

As advised at the AGM held on 21st October 2017, the Management Committee will be seeking to amend the club's existing rules to make them purpose fit for a modern environment, and to bring them into line with new statutory requirements imposed by the *Associations Incorporations Act 2015*.

The proposed new rules are attached, and I invite all members to review these and provide any comment, feedback or concerns to me directly (via petehullett@bigpond.com) by Monday 4th December 2017.

Following member consultation, the proposed new rules will be provided to various State Government entities to ensure compliance with relevant licensing and consumer-protection provisions. Once these certifications are provided, the proposed new rules will be presented to members for adoption at a Special General Meeting at a future date to be determined.

Peter Hullett
President
